PROFILE

Frontend Developer with hands-on experience building responsive web applications using HTML, CSS, Tailwind CSS, JavaScript, React and Redux. Strong focus on UI development, clean code, and modern frontend workflows using Git and GitHub.

PROJECT EXPERIENCES

FRONTEND DEVELOPER | SELF-INITIATED PROJECTS

- **TRAILERFLIX**
  React, Redux, TMDB API

  - Built a movie trailer browsing platform with real-time search functionality
  - Implemented responsive UI using Tailwind CSS for cross-device compatibility
  - Integrated external TMDB API for dynamic movie and trailer data
  - Used Redux for state management and predictable data flow

- **PORTFOLIO WEBSITE**
  React, Tailwind CSS, GSAP

  - Designed and developed a personal portfolio to showcase projects and skills
  - Implemented smooth animations and transitions using GSAP
  - Optimized layout for performance, accessibility, and mobile responsiveness
